# U-ONE

Intelligent cash deposit system

One of the smallest smart safes on the market
The SmartSafe with one by one acceptor is the fastest on the market

U-one is a smart safe designed for a traditional shop both on the front line and back office. U-One helps checkout staff validate bank notes, avoids counting errors and eliminates the need to stop a task to perform manual counting.

The banknotes are validated, counted, deposited and stacked with the utmost precision in a tamper-proof heat-seal security bag.

The innovative software platform allows real-time monitoring of all transactions and all events simply by connecting via a browser.

U-One is divided into two parts, Top and Safe, the Top validates and counts the banknotes that, once moved into the Safe, could be directly credited to the bank account.

Only authorised people can open the safe and remove the sealed bag.

U-One is available in two versions: U-One 600 (capacity 600 bank notes) and U-One 1200 (capacity 1200 banknotes).

Specifications:

Top

Validator	Individual validation of banknotes 1-2 notes per second Verification Rejects dubious banknotes (ECB legislation) Currencies: EUR, CHF (US Dollar, Pound Sterling in development)
Display	4.3" touchscreen can be used as console in offline applications: user identification, counting, deposit, opening and closing of the safe
Connection	USB - Opt. LAN/WIFI with additional board - Opt. GPRS with additional board
Power supply	230 V, 50 Hz
Accessories	Opt. printer - opt. barcode reader

Safe

Deposit System	Stacking system in tamper proof thermo-seal bag designed by YOUGO
Bag capacity	600 banknotes (1200 banknotes in the U-One 1200 version)
Safe	3 mm Strong Box Electric opening and closing - Opt: Electro-mechanical lock

Inking system in development

Size/Weight (600) 184 x 388.5 x 391.8mm (W x D x H) / 21.5kg
Size/Weight (1200) 184 x 405.5 x 491.8mm (W x D x H) / 26kg
